

AP AUTOMATION FOR CONSTRUCTION

PRODUCTS FROM CORE ASSOCIATES AN AVIDXCHANGE COMPANY

Core Associates, an AvidXchange company, automates every aspect of the accounts payable process, including data entry, approvals, document management and reporting. Project-intensive businesses like construction companies can finally eliminate manual-processing risks and end the relentless paper-chase that hampers timely invoice approval and beyond.

PRODUCTS:

Automatically acquire invoices, code them touch-free and set off the approval process in an instant with TimberScan® all while staying fully connected to Sage 300 Construction & Real Estate. Secure, flexible access to AP documents for approvers, reviewers and finance personnel make TimberScan a reliable choice time and again.

Manage your paper-based forms and data electronically, from anywhere. Users get a project-centric experience to easily manage credit card expenses, time sheets, purchase orders and so much more with seamless integration to TimberScan products.

Take the TimberScan experience along anywhere with TimberScan Go. Access connected invoice data from a browser or mobile device and say goodbye to approval process delays.

TimberScan Titanium provides the ultimate AP workflow experience for Acumatica, Sage 100 Contractor and Sage Intacct keeping you connected to your cloud-based systems.
