

CONNECTED TIME AND ATTENDANCE

TIME-RELATED DATA MANAGEMENT FOR CONSTRUCTION

Manage time like a pro. Core Associates, an AvidXchange company, offers mobile timesheets for easily capturing individual and crew-based labor hours from anywhere. Accounting and payroll teams stay connected with Sage and TimberScan for validating job codes and gaining an approval experience that matches the needs of project-intensive businesses. See how TimberScan Remote Time works:

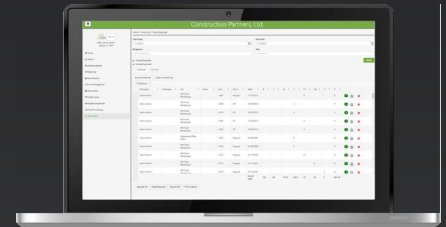

SUBMIT TIMESHEETS FROM ANYWHERE

Use a template or create custom timesheets. Experience single-entry configuration and multi-level approval capabilities with clock-in/clock-out functionality, per diem, and more using various entry methods.

INCLUDE SUBMISSIONS WITH DAILY REPORTS & WORK ORDERS

A collective view of labor, equipment costs, job status and site conditions provide project managers and accounting teams with valuable information in a single location.

GET TIME DATA WHEN AND HOW YOU NEED IT

Drill down from a grid-style view into timesheets for editing or approval. Available workflow enhancements ensure an ideal match to help keep your business processes unchanged.
