timberscan

The Top Choice for AP Approval & Content Management

✓ TimberScan has by far **the largest market share** with over 2,000 clients and more than 35,000 users.

✓ Works with Sage 300 Construction & Real Estate **and** Sage 100 Contractor.

✓ Core Associates, the makers of TimberScan, is a Sage Development Partner with a **highly rated technical support** team comprised of many **Sage Certified** consultants.

CFO Tech Outlook **TOP 10 ACCOUNTING** SOLUTION PROVIDERS - 2020

sage | Construction and Real Estate Development Partner

For Finance and Accounting

- Best A/P approval workflow available — the only AP automation system designed exclusively for Sage CRE.

- Data entry in TimberScan is the same as Sage 300 CRE so there is virtually no learning curve. TimberScan's interface is so easy to navigate it enables users to get information faster than other systems allow.

- Exceptional Content Management System for all documents, emails, images, and other content with the ability to add workflows and route for approvals. Unlimited TimberScan AIM Search users at no added cost.

- Available integrations with AvidXchange™, Procore, plus other project and financial management solutions.

- Included Email Monitoring feature that automatically moves invoice attachments from email inboxes to the TimberScan folder, plus an optional Acquire Automation feature that extracts emailed invoices and prepares them for data entry.

- Included, cloud-based mobile app for approval of A/P invoices.

- Optional module uses Optical Character Recognition (OCR) to extract pertinent invoice information and prefill data entry, saving time.

- Optional module enables workflows to be added to any document, for example: distribute paystubs to all employees by email or text messaging; documents can be password protected and delivered securely with one command.

- Highly rated, experienced support team that includes several Sage Certified consultants accessible by phone, email, or through an online ticketing system.

- Free continued education through live and recorded Lunch & Learns (webinars), an online Knowledgebase, product documentation, monthly eNewsletters, and through annual Tune-Ups with a Core Associates professional.
