TimberScan for Sage 100 Contractor Users

Make it easy to manage construction documents and automate AP invoice processing with TimberScan 100 all while staying connected to your Sage 100 Contractor system. Content management and invoice routing is made simple using a browser-based application that's user friendly and ready-to-go. With TimberScan 100, your construction business can:

- Automate AP invoice approvals with precision routing rules

- Gain tighter control of document management

- Get a simple, real-time status view of invoices and documents

- Enjoy a single point of entry for data – no need to rekey information

- Customize workflows, security, and more!

| Acquire Invoices and Other Documents | Enter Data into Sage 100 Contractor | Automatically Route for Approval | View Invoices/Documents & Cut Checks Sage 100 Contractor |

Technical Requirements

Server Requirements

Following are the minimum (and recommended) hardware requirements for TimberScan 100 software.
