TimberScan, by Core Associates, automates every aspect of the accounts payable process, including data entry, approvals, and reporting. It eliminates manual-processing risks, and ends the relentless paper-chase that hampers timely invoice approval.

Easily **acquire AP data** and **securely store documents** in native formats all while syncing with your Sage CRE system. Powerful content management features allow you to store, categorize, and search directly from TimberScan. For convenience, document searches can also be executed from Sage 300 CRE.

Automate AP invoice workflows with TimberScan. That's right—no more back and forth with sign-offs or delays due to missing invoices or signatures. Simply identify an approval workflow, assign it to your TimberScan invoice, and you're done!

Routing rules in TimberScan are easily defined and modified. Powerful user-level security maintains confidentiality and data integrity.

"If you have Sage CRE you should have TimberScan to make your AP process easier and faster."
*- C. Russell, Director of Information Systems*
