

Core Cloud Systems - CCS PO

Integration with Sage 300 CRE and TimberScan

1. Create a Purchase Order

2. Review and Approve POs

3. Send POs to Vendor

4. Integrate with Your Systems

Sage 300 CRE Commitments

TimberScan

1. Create POs from any device
2. Submit POs for review and approval (device or grid)
 - Drill down for simple editing and coding options
 - Filter grid by approver
3. Send approved POs to vendors by email directly from CCS
4. Integrate with Sage 300 CRE and TimberScan
 - Export PO data to Sage 300 CRE
 - Import PO data into Sage 300 CRE Commitments
 - Send approved docs (including invoices) to TimberScan AIM and to Sage for access via the Paperclip
