

Empower workers on-the-go and simplify accounts payable with cloud-based solutions.

CCS Mobile Time Entry

- Enter individual or crew-based time in pre-built forms
- Route, edit, approve, drill-down, submit, and apply workflows
- Import/export several standard reports, and more!

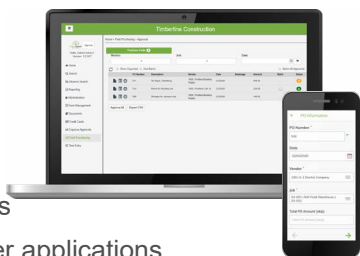

CCS Mobile Expense Reports & Credit Card Reconciliation

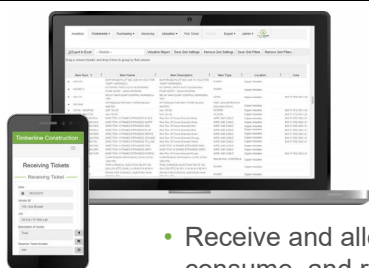

- Submit expenses in pre-built forms with photos of receipts from your phone
- Match submissions to statement transactions automatically
- Process receipts, and view docs in your ERP system

CCS Mobile Purchasing & Receiving

- Submit POs from the field with accounting codes ready for selection
- Let approvers review POs from anywhere
- Send approved POs to vendors
- Easily sync your data with other applications

CCS PO Inventory

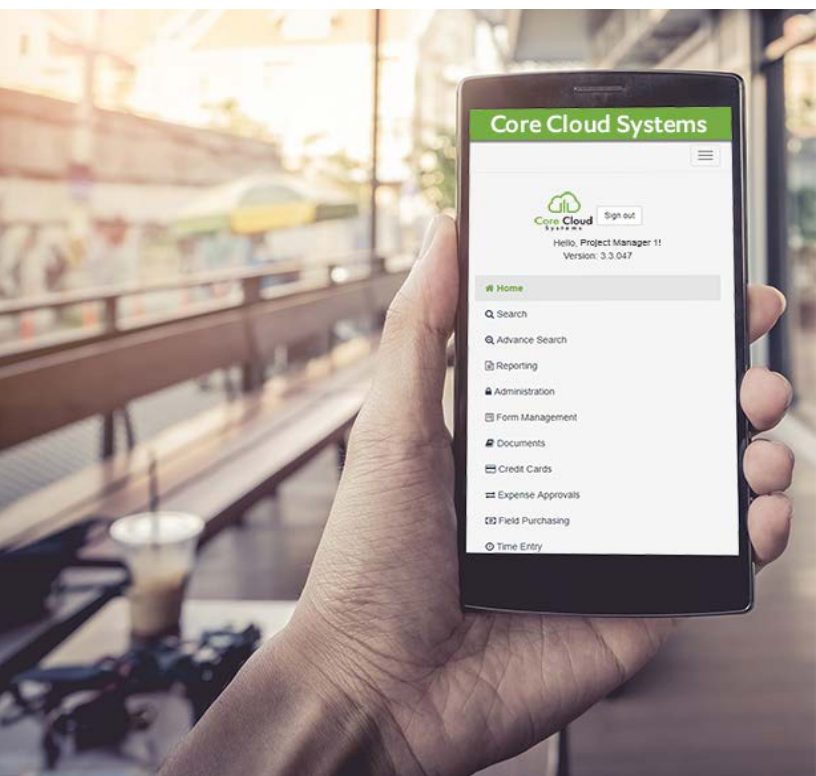

- Manage materials from anywhere leveraging multi-location capability
- Utilize physical counts, pick tickets, or barcoding systems
- Receive and allocate inventory; transfer, consume, and reserve items
